New York Venues

InterContinental New York Barclay Following a \$180 million gut renovation, the hotel reopened in the spring in time for its 90th anniversary. The 704-room luxury Midtown property has two specialty suites, the 3,000-square-foot Presidential Suite and the new rooftop Penthouse Sky Suite, which has a 1,500-square-foot terrace that overlooks the Chrysler building. Overall the hotel offers 15,000 square feet of meeting space and can now host larger events after creating two new ballrooms. (111 East 48th St., 212.755.5900)
